RAINMAKER IS COMING

Medicine Hat Farmers Sign Contract

With California Rainmaker

MEDICINE HAT, Farmers and citizens packed the city council chamber yesterday afternoon, at the meeting of the United Agricultural Association which was called to consider a contract with Rainmaker Hatfield to operate in this district during the coming summer. The president, J. Pollock, of Winnipeg, acted as chairman, and the Secretary, Mr. F. S. Hatfield, presented the contract. A dissenting vote the association adopted the contract, and an executive committee was appointed to look after the details of the proposition.

Telling of his recent trip to California on February 16th at 2 p.m., a discussion was held in the Town Hall on the subject of rainmaking. The boys and girls are getting good exercise and lots of good and healthy fun. There is still room for a few more boys and girls, and, wishing to join this class will apply to Mr. Not Davis on Wednesday night at 7:30 p.m. in the basement of the Union Church. All parents should urge their children to join as the instruction is given by a qualified instructor in a comfortable room and free for all. Parents are invited to visit any Wednesday evening.

A meeting will be held in the Town Hall on February 16th at 2 p.m., to discuss ways and means of carrying out the contract and taking charge of business in connection therewith. All are invited to attend. Residents are particularly requested to be present. Don't forget the date, Friday, February 16th. The Women's Institute will also be present.

The regular monthly meeting of the Women's Institute will be held February 16th at the home of Mrs. H. A. Anderson, who will be assisted by Mrs. H. J. Anderson. Visitors as well as members always welcome.

The Ladies of the Union Church will hold their Annual Easter Sale of Home Cooking, March 27th. 9-24

Mr. W. D. Knappe has been in town for the past week completing the annual audit of the books of M.D. Bow Valley and preparing a financial statement.

Strathmore Party at Strathmore Rink, Wednesday, February 16th from 8 p.m. to 11 p.m. Strathmore Brass Band in attendance. Turn out and enjoy yourself and help the boys. 16-24

We hear that there is some prospect of a newspaper being printed in Calgary for Carleton Place. The same scheme is being worked throughout the province by a Calgary printing firm who hope to extract some money from the smaller villages. This plan has been tried before but none of those schemes have ever resulted in anything but disappointment to either subscribers or advertisers. A country newspaper published in a city is not doing the country district any benefit.

Strathmore G.W.V.A. are holding a Valentine Party in the Opera House on the 14th inst. Proceeds will go towards the furnishing of the Memorial Hall. A good time is promised, and everyone is welcome.

Strathmore Masonic Lodge are holding a social gathering on Friday, February 15, the proceedings will consist of a banquet followed by dancing and cards, and all members of the Lodge, with their wives and families are invited.

The U-G-Go Girls Club, which is associated with the Strathmore Women's Institute are holding a dance on February 25th. Proceeds of this will go towards Strathmore Memorial Hall.

Dr. Givlin has been spending a few days in Calgary during the past week.

How is your subscription? Your address label will tell you. The cost of the Standard for a year is the same as the cost of a single prescription, and it is good for a whole year, whereas a prescription is good for nothing.

As will be seen from our advertising columns the Grain Growers Elevator at Nanaka is offering exceptionally low prices on coal.

In an ad. local last week, with regard to the concert to be held at the Strathmore Schoolhouse on Friday, February 11th, it was stated that a Calgary orchestra would take part. This should have read "Calgary artists."

The amount expended through the local office of the C.P.R. Irrigation Department last year was in the neighborhood of \$475,000, of which about half was wages.

At the Lethbridge Egg Laying Contest, Barred Rock pullet, property of C.P.R. Poultry Farm is in the lead, competing with 221 birds and has a record of 62 eggs in 77 days to her credit.

Paying-Up Time

While many subscriptions expire at different months of the year, it is at this time that we expect a general settling up of subscription accounts—those numerous things that do not mean much to the individual but which total to a great deal when all combined, and which total of dollars is most necessary under present conditions to the newspaper man to meet the ever mounting cost of supplies and productions.

Prices in the newspaper line are still going up. Before the war a ton of news print paper could be bought for \$35. Until recently the price was fairly stable at \$250 a ton, but within the last month another raise of \$30 per ton—a raise alone almost equal to the original cost of a whole ton—has taken place. If ever the newspapers of Canada needed immediate settlement of accounts, it is now.

We have always been able to count on our subscribers doing their part and we feel that this year they will not fail us in coming in at once with their renewals.

STRATHMORE'S DEPARTMENTAL STORE

Developing Agriculture in Canada

A man, woman or child who does not enjoy good health and the blessing of a sound, strong body is handicapped in life no matter how well off they may be in this world's goods. Because nothing else, or all else, can compensate for the lack of health. And the nation that does not take active measures to promote and protect the public health is allowing a weakness to require and develop which cannot but retard the national growth and prosperity and undermine the national strength.

While good health and a physically fit body is the first and most important item in the equipment of the individual, and the chief asset of the State, second in importance comes a trained and educated mind. A nation of ignorant and illiterate could not accomplish much of good, betterment, and, would, in fact, be a menace to the world. Brave forces would be their dominating characteristic; they would be a relic of barbarian days. Therefore, wise nations and far-seeing Governments place the development of education among the people as one of the foremost duties of the State.

It was in recognition of these facts that, in this series of articles on the duties, functions and methods of government in Canada, attention has been directed in preceding articles to the work and activities of Government along these lines. However, the preservation of health and strength is not equipment to do the world's work, and education is a tool in the hands of the workman where-with he can do the best possible work in the most efficient manner. Given these essentials, it next becomes the duty of the State to assist people to work along right lines and by the most approved methods, and in ways which will redound to the welfare of the individual and the prosperity and growth of the nation.

There are certain things which each individual must do for himself, there are others which people must accomplish by co-operation and a union of their individual efforts, there are others which are beyond the capabilities of the individual, or groups of individuals, and which must be undertaken by the State in the interests of all success to be achieved.

The chief business of the Western Provinces of Canada is agricultural—to produce food, not alone for their own people, but for all the world. Nature itself designed these Provinces for that work, and it is the part of wisdom for Governments to accept Nature's design and assist in the fullest possible extent in working it out. It is only right and proper and good business that one of the most important of the departments of government should be that devoted to agriculture. It is well that this fact has been recognized so fully in the three Prairie Provinces from the earliest days.

The duty of fostering agriculture in Canada is, however, not confined by the Canadian constitution to either the Federal Parliament or the Provincial Legislatures, but is a coming sharing with the latter. Unfortunately, this has led to much duplication of effort and over-lapping in services so that full value has not been received by the Dominion for the large sums spent annually for the encouragement and improvement of agriculture.

It is high time that a clear understanding as to the respective duties of endeavor should be arrived at between the Dominion Government on the one hand and the Provincial Governments on the other. There are certain phases of agriculture which are common to the whole Dominion and these might well be dealt with by the Dominion Government, while the remainder of the Federal authority. On the other hand, climatic, soil and other conditions differ so greatly between the Maritime Provinces, the old Provinces of Ontario and Quebec, the three Prairie Provinces, and British Columbia, that it is the right of the Dominion to attempt to deal with many of the questions which engage their attention, and which the several Provinces, owing to local conditions, have likewise been forced to undertake. These might well be left exclusively to the several Provinces to manage as their particular interests demand.

Instead of this being done, it is unfortunately only too true that in recent years when a Province inaugurates a certain line of work in connection with agriculture, the argument and lettering it is a signal for the Federal Department of Agriculture to engage in the same activity, and in other instances Provinces commence a duplication of services being performed by the Dominion. There appears to be a reluctance on the part of officials in all our Capitals to abandon any particular line of activity, because it would mean that some officials would be out of a job, possibly for purely party political reasons. As a result we have daily broadcast, and foreign broadcast, and branches devoted to this and that, at Ottawa and all the Provinces, with, of course, duplication of effort and waste of money in many ways.

There is a wonderful opportunity for some one of the able or the most energetic of agriculturists in Canada to devise a plan for ending all this confusion, waste and overlapping, and for the coordinated, organized, educational and experimental work in this Dominion. It will mean the saving of millions of dollars now wasted for an extraneous result which will work in other directions, or enlarging the progress already being attained.

Almost Lynched

It happened to a local druggist that sold a cheap and easy sale method of the reliable and efficient "Pain-Ex" ointment. Subsequent to the sale, the druggist's name was mentioned in the local "Pain-Ex" office as a dealer.

Must Swear Allegiance

Australia Has New Regulations Deal-

ing With Immigrants.

A Melbourne, Australia, dispatch to the London Times says that a regulation has been enacted which will enable the authorities to require any person landing in Australia from Great Britain to take the oath of allegiance. This regulation was formulated in response to a report that a Sinn Féin emissary was bound for Australia.

FRAGILE, PALE
AND MISERABLE

The Melancholy Story of Thousands
of Bloodless Children and
Young Girls.

How often do you hear the remark, "She is very delicate?" How often it means that some young woman, reared in luxury, suffering from prostration, diarrhoea, loss of appetite, a disordered digestion, indigestion, flatulence, constipation, headache, neuralgia, rheumatism, pain in the back and limbs follows her, and she is never really well.

This fragile state of health, this lack of vitality, calls for prompt treatment. The blood must be nourished, the system must be invigorated. The blood must be invigorated, the system must be invigorated. The blood must be invigorated, the system must be invigorated.

The blood must be invigorated, the system must be invigorated. The blood must be invigorated, the system must be invigorated. The blood must be invigorated, the system must be invigorated. The blood must be invigorated, the system must be invigorated.

The blood must be invigorated, the system must be invigorated. The blood must be invigorated, the system must be invigorated. The blood must be invigorated, the system must be invigorated.

"Oral Hygiene" Lay
Education Series
"YOUR TEETH"

To-morrow or next week or next month won't do if you intend to take care of your teeth. Health means that every part of your body is working in harmony with every other part. If one portion is neglected the whole organism will surely suffer.

Today is the time to set your house in order. Why not begin at the front door of your system, the mouth? In your permanent set you have thirty-two teeth. They are arranged in pairs, gradually shifting their position and the more their positions are shifted, the weaker will be the crushing power of the teeth become.

Disordered and decayed teeth have no power to repel themselves as many other parts of the body have. A tooth that is lost from the permanent set will not be replaced by another any more than a lost finger will grow again.

Bad food and energy and vigor depend upon digestion. There can be no proper digestion after the nursing stage is passed without proper mastication. When the people of Europe, the American soldiers, the first thing that they noticed was their muscular figures and clear complexion and the next thing their remarkable teeth. They used to say "My army marches upon its stomach," but we know that an army marches upon its stomach and its teeth.

How long would a soldier hold his front line position with a raging mouthache or with a system full of rot from toothache or old roots? How long will anyone keep up to the top notch of dependable energy in the same condition?

If you will give the care to your teeth that will insure them long life and good health, they will do their share and will give you a better chance for a vigorous future than you can get in any other way.

Minaid's Linsim for Diets.

Manitoba's Crop

Manitoba's Field Crop for 1921

Totalled 121,355,600 Bushels.

Manitoba's field crop production for 1921 totals a total of 121,355,600 bushels in an area of 1,200,000 acres.

According to an official estimate made public by the Manitoba Department of Agriculture.

The returns were compiled jointly by Dominion statisticians and officers and the Provincial Department of Agriculture, each of which has received returns from their Manitoba crop correspondents. Reports made by 16,728 farmers, each reporting upon his own farm, were the basis of the figures.

Yield estimates are based upon the crop correspondents' returns from 800 townships.

New French Trade Treaty.

Negotiations for the conclusion of a new commercial treaty with France are still under way. Considerable advance has been made, but a definite result has not yet been reached. Since French subsidies of trade and commerce, had the matter in his mind, when in Paris, but further negotiations will be necessary.

Many have been relieved of stress by Holloway's Corn Remover. It is a preparation of such that will be found effective.

Beige-Colored
Crepe Makes a
Pretty Dress

By Gertrude Berestford.

One of the fabrics which promises to be very much in vogue in the coming season is crepe. Its dull finish is most effective, while its draping and wearing qualities are admired both by the creator of the dress as well as its wearer. This interesting model is originated in beige-colored crepe. The sleeves are most artistic with their long pleated cuffs. A high neck is featured in this frock and it is finished with a little plaiting, a very decorative arrangement is noted on the pleated skirt. The black sash has about a trimming of two rows of the pleated crepe.

Saskatchewan's
Proposed Water Supply

Huge Project If Undertaken Will

Prove of Great Benefit.

One of the most interesting developments in early progress in the province of Saskatchewan is the diversion of water from the South Saskatchewan River for use in the Regina-Moose Jaw district. The scheme has been pronounced feasible and the only solution of a satisfactory water supply for the district. A commission recommends that legislation be passed to create a water district and give the necessary corporate powers for properly administering it, much the same as we have in the Greater Winnipeg district. The scheme is not a new one. As long ago as the thirties and in 1904 the South Saskatchewan River was suggested as the only satisfactory source of supply for the great Regina-Moose Jaw plain for such eminent engineers as the late Sir John A. Macdonald, Sir John G. Diefenbaker and Mr. J. S. Diefenbaker.

The system recommended by the commission will provide for 12,000,000 imperial gallons per day with an additional 6,000,000 gallons available for periods of excessive drought covering two or three months of each year. Some doubt has been expressed as to the effect of withdrawing such a quantity of water from the river. The data collected shows that the lowest monthly discharge during the last ten years was during January, 1915, and averaged 1,125 cubic feet per second. The amount proposed to be diverted is about twenty-three cubic feet per second and the effect of such withdrawal will, it is said, scarcely be noticed. At any other time the natural flow is much greater and during the summer months averages about 35,000 cubic feet per second—Winnipeg Tribune.

STANDARD NEWS.

In our last issue it was stated that the farmers would likely not buy Mr. George Day's store. At the last meeting, which was on the last Saturday in January it was decided to buy the stock and store of Mr. Day. The transaction will probably take place in February.

Mr. Axel Lafsen returned from his trip to the old country on January the 25th.

Mr. J. P. M. Jensen is having a little luck in cattle raising for in the last two weeks his stock increased by twins, not babies, but calves.

The South Valley School seems to be almost the most prosperous school in the district. Miss M. Watson, the teacher is a kind lady and she is very much liked by the children. The pupils are far ahead of all other schools in the district because there are not many pupils hence more time can be spent in each grade.

Mr. and Mrs. Jens Rasmussen have found a splendid location in Calloria where they will spend a month or so before returning home. The flowers are still blooming and the fruit trees laden down with fruit.

The "firewater" as the Indians call it, is still pouring into Standard, between eight and twelve bottles find shelter and rest here every day.

The minister's abode of the Danish Lutheran Church is undergoing quite a change this winter. A cellar has been dug and a furnace put into it, a new hall and partry have been built and the whole house has also been painted and pointed all over. At present linoleum is being placed on the floor. A new barn will be built and this will have a compartment for the engine. The next minister who will come here in February will have an up-to-date house and barn.

Edward Rasmussen is taking music lessons from Mr. H. Halkier, who is quite an expert at the violin. Edward was charmed at the beautiful music produced by the violin and would himself like to be able to be the proud possessor of some of those tunes.

Jacob Christensen gave a party to all who were visitors to Denmark last year, last Saturday night. The guests report of having a good time and they renewed all their remembrances of the old mother country.

Mr. J. P. Nelson will hold his sale on or about February 26th. Mr. Prater will be auctioneer and Mr. Hutten clerk.

Union Church services will hereafter be conducted at 11 o'clock in place of 2:30 o'clock as it has been.

The stock taking in Day's store is now over and the farmers know exactly what they will have to pay for it all. They have already taken it over and Mr. Moore of the United Farmers and Otto Jensen, who formerly worked in J. P. Hansen's store, are running it. The prices will not be cut for a little while yet. Mr. Messenger will be most likely be our next postmaster, but it is not yet known where the post office will be when it is to be moved. The front of that compartment now used as post office will be used as ladies rest room and the back will serve as hardware store.

Someone recently surpassed Martin Jensen in cattle raising if we consider the claim to the one having the most calves from one cow at one time. Axel Jensen beat him last Friday by having triplets or three calves from the same cow at one time.

Our painter, Mr. Peterson, has been ill for the last four weeks. The symptoms are somewhat that of sleeping sickness, for he has not slept for one week almost steady. The doctors are sure that it is not sleeping sickness. A Calgary doctor calls it "winter pneumonia" and says it is not a dangerous or other contagious disease.

On Friday evening, February 13th, a shadow social and dance will be held at the South Valley School house. The proceeds will go towards decorating the school with pictures, etc. A good time is assured and everybody is welcomed, especially the ladies who will bring well-filled baskets.

With four horses and two sleds roped together, W. Thompson is making one of the long winter months by hauling his wheat to town.

The membership fee in the United Farmers has been lowered from \$1.00 to \$2.00.

Harry Lavinsen returned to Standard a few days ago. The rest of the family are now residing at Victoria where they will stay a little while before returning to Standard. Rumors have been round that they were in Calgary, but this is not true.

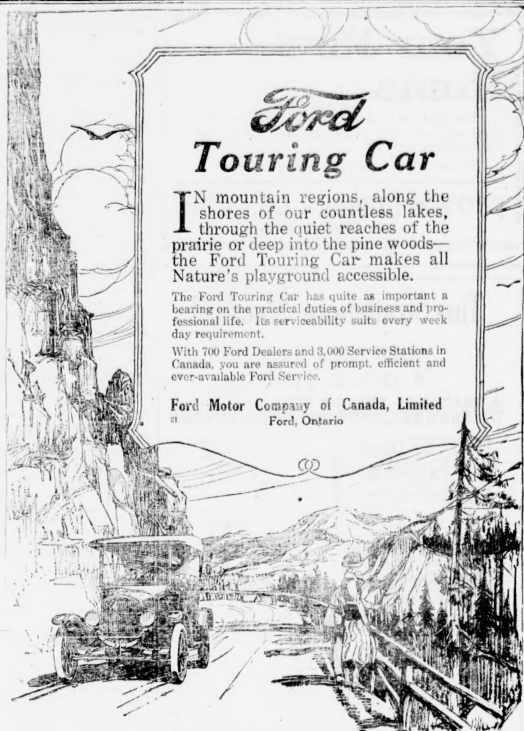

Ford Touring Car

IN mountain regions, along the shores of our countless lakes, through the quiet reaches of the prairie or deep into the pine woods—the Ford Touring Car makes all Nature's playground accessible.

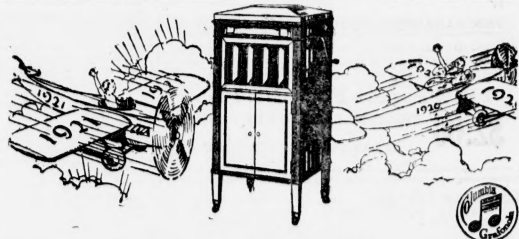

The Ford Touring Car has quite as important a bearing on the practical duties of business and professional life. Its serviceability suits every week day requirement.

With 700 Ford Dealers and 3,000 Service Stations in Canada, you are assured of prompt, efficient and ever-available Ford Service.

Ford Motor Company of Canada, Limited

Makes Time Fly

You can fill your long winter evenings with fun if you have a Columbia Grafonola. You can dance or listen to the latest popular song hits. You can hear great opera singers and famous instrumentalists. Call and let us show you this beautiful instrument.

For shorter winter nights, for fun and frolics and rollicking dances, get a Columbia Grafonola and make your selection of Columbia Records:

Avalon from "Sinbad" Al Jensen, Comedian, Orch. Accom. and Old Pal, Why Don't You Answer Me? Tenor Solo, Henry Burr, Orch. Accom. A-121, \$1.00	Love's Garden of Roses, Baritone Solo, Orch. Accom. and Rose in the Bud, Baritone Solo, Louis Gravenor, Orch. Accom. A-122, \$1.00
Whispering, Fox-Trot, and If a Wish Could Make It So, Fox-Trot, Art Hickman's Orchestra. A-123, \$1.00	I'll Still Remember When You Forget, Tenor Solo, Henry Burr, Orch. Accom. and When You're Gone I Won't Forget, Mel. Quartette, Shannon Ford, Orch. Accom. A-124, \$1.00
Lead Kindly Light, Contralto Solo, and I Need Thee Every Hour, Contralto Solo, Cyrena Van Gordon, Orch. Accom. A-125, \$1.00	A Dream, Tenor Solo, Charles Hackett, Orch. Accom. A-126, \$1.00

STATHMORE TRADING COMPANY,
Columbia Dealers, Strathmore, Alta.

Farmers in the district have all received free samples of different grades of wheat, oats, sweet clover and grasses from the Harris-McFayden Co. What experimenting we will have next summer.

Everyone living around Standard or in any way interested in the doings of this little town should subscribe to this paper as it will continue to publish all the news of this prosperous town. Besides it offers a lot of interesting reading matter.

Westergaard and family have moved in on Mr. J. P. Nelson's place. Westergaard has rented Nelson's farm for three years.

Mrs. Lars Rasmussen will visit her parents and sisters in Denmark. She will leave this spring and come back in the harvest time or thereabouts.

Subscriptions for the Standard can be handed in at J. P. Hansen and Co. store.

A Valentine Dance will be held at Nordquist's Hall on Monday, February 14. Everyone welcome.

X X X SPECIAL

It was a chemistry class, and the aged professor, who was anything but a Poncey, was doing a stock experiment, which consisted of blowing vigorously upon some blue crystals, whereupon they turned yellow.

When he had finished he asked the class if they had any questions to ask. "Yes, sir," came a voice from the back of the room. "Will anybody's breath do that?"

L. B. O. LODMELL, MGR.

The COOTIES Are Coming! HOORAY! HOORAY!

The Great Cootie Game Is Here.

Highly interesting and amusing to old and young. It looks small when you first see it, but, OH, BOY! like the real Cooties, it's going to grow on you.

See Them In Our Window.

A CITY PLANT IN THE COUNTRY

Cities claim advantage over the country in the matter of manufacturing facilities. Printing is a manufacturing business, and for that reason city plants claim that they can do work more cheaply and efficiently than the country printing office.

That may be true as regards some towns, but not as regards Strathmore. The Strathmore and Bow Valley Standard has a fully equipped and modern plant, which includes Intertype typesetting machine, large cylinder printing press with capacity of from 1200 to 2000 per hour, platen press, folder, stitcher, etc., all operated by power. We have our own electric generating plant.

We can therefore meet all demands made on us for any kind of job printing, and meet the prices of any city house. Our prices are the same as Winnipeg, plus freight.

We pay mailing and express charges on jobs for customers in the Bow Valley district, and outside orders can be filled in a day's time, if necessary.

We specialise in Looseleaf Work, and supply account sheets for any binder. We are also agents for one of the best line of Counter Check Books. Every description of Commercial Printing Efficiently Executed. You don't pay travellers' expenses when you deal with us.

STRATHMORE AND BOW VALLEY STANDARD

John Mackenzie, Proprietor.

U.F.A. MEETING

A meeting of the U.F.A. was held in the King Edward Hotel on January 25th. Mr. Weyers took the chair in the absence of the President. About twenty members were present.

The report of the convention was given by the delegates.

Mr. Haines in his report gave a good talk on the wheat pool and answered questions well to the satisfaction of all present.

At the present time there are sixty-three members of the local, an increase of twenty on last year, with a few more yet to come in.

GRIMSBY OLD BOYS AND GIRLS
A real family gathering is scheduled for Grimsby, Ontario, on August 25, 26, and 27, 1921, when an Old Boys and Girls reunion will be held. If any of our readers are from the vicinity send your name and address to The Old Home Committee, Grimsby.

WINNIPEG, ALTA.—One resident in every sixteen in Manitoba owns an automobile, or a total of 36,461. For the whole of the province, an increase of 25 per cent over 1919. The revenue obtained from automobile licenses during the fiscal year 1920 was \$107,515. At the coming session of the legislature, members will be asked to vote a fifty per cent increase in automobile license rates. If passed, this means that owners of cars in Manitoba, all makes, will have to pay \$15 license fee annually.

Brandon, Man.—To encourage the immigration of household help, Manitoba, following Saskatchewan's lead, is sending a representative over to the British Isles, according to the statement made by Hon. G. H. McLeod, before the United Farm Workers' Association recently.

PAT CASEY'S PRAYER
An Irish soldier, after ten months of hard active service, applied for a furlough. His request was granted, and then dived on him that he had no money to take advantage of his holiday. He wanted \$100 to go to Paris. He was at his wife's and there alone no time to be lost, when he remembered his old mother's advice to apply to the good Lord above in time of trouble. So he wrote and posted this letter:

"Dear Lord,—Here I am after fighting ten months in mud up to my neck. The work is somewhat unpleasant, but you'll be glad to hear that I killed fifty. This was sent to the applicant, without comment, in a Y.M.C.A. envelope. The next day the following acknowledgment was received:

"Dear Lord,—I've received your \$50 as per application for furlough money and I thank you. May your shadow never grow less. But I make no bold as to give you a word of warning. Send me the next money by the K of C's. Ye sent the last by the Y.M.C.A. and they slipped off half of it."—The Veteran.

An incubator of long standing has been formed by an operation which removed the bone that presses against the brain. The Detroit News also reports a number of cures effected by the removal of a brass nail that was pressing against the foot.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Frederick Jensen, late of Strathmore, in the Province of Alberta, farmer, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Frederick Jensen, who died on the 1st day of June 1920 are required to file with the undersigned by the first day of March 1921, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the Public Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to its knowledge.

Dated this 25th day of January 1921.

TO ANDREW J. BROWN

(1) Strawberries grown in Alberta.

The best of the red kidney, white
grape and white Dutch of the
white, and the Black Knight,
Grape, Victoria and North Star
of the black currants. Several
varieties of red, black and golden
raspberries, particularly the red
have also been grown with greatest
success. The Ruben and Culbert
are the favorite raspberries.
Their flavor is fine, they yield heart-
ily, and the former, particularly
varieties very early in the season.
Herbert, Turner, King and London
varieties have also been very suc-
cessful. The Carolina has proved
to be the best of the yellow rasp-
berries.

MUNICIPAL DISTRICT OF BOW VALLEY, No. 219

TO ANDREW J. BROWN

Farmer of Nightingale, Alberta
Notice that on action No. 845
pay \$30 has been commenced against
and in the Supreme Court of Alberta,
the Plaintiff, District of Calgary, by the
Commissioner of the Public Highway Com-
missioner the sum of \$2700.75 being the
sum due under an Agreement of
sale made between you as purchaser
and said Commission as vendor in res-
pect of the North Half of Section 19,
in Township 26, Range 24, West of
the Fourth Meridian, in Alberta, and
also for determination of said sum.

And Further Take Notice that you
may deliver:

(a) a Statement of Defence, or
(b) a Denial that Notice of any
application in action be given
to you on or before the 26th
day of February 1921, and on
default of your so doing the
Plaintiff may obtain judgment
and final order for determina-
tion without further notice to you.

Dated at Calgary, Alberta, this 25th
day of January 1921.
Sgt. LAURENCE J. CLARK
Clerk of the Supreme Court.

Approved, L. F. Cherry. 1-2-0
